## **SECTION-2 (ABHINABA AUDHYA : M120360CA)**

- Lots of short form used.(C)
- Though there are so many requirements. But the software should be light weight itself so that it can be easily hosted.(O)
- Page 3.(Point 8). If there is an issue of bidder being blacklisted outside INDIA, will the bidder be eligible to bid? (C)
- Page 6 (1.4.b).CSV or .XLS are Microsoft Office extensions that is correct. But considering the fact in Page 5.(1.3.Point 1.) that for deployment of the software first preference is linux hence open office extensions for linux should also be included in the interface . (O)
- Page 6 (1.5.a) Biometric specification is needed (fingerprint, retina etc). With biometric facilities comes extra costing issues and other compatibility issues.(C)
- Page 6 (1.5.a) Susceptible to hacking. Encryption of Important information is required. Type and level of security requirement is not clearly mentioned. (C)
- Page 6 (1.5.a) Security procedure to be handled by 3<sup>rd</sup> party or the MIS developer itself is not mentioned.(O)
- Page 7 (1.7) Photos of persons can be included.(Not mandatory) (O)
- Page 8 (1.8) Providing training to all the end-users is basically not possible. So it would be a good idea if end-user manual is to be mailed to corresponding NITC mails. And to ensure people reads the mail, some mandatory question set should be prepared for all end users which should be evaluated and carries marks.(O)
- Page 9 (1.10.b) Annual Maintenance Point is not clearly explained. Please elaborate it properly. Mainly the renewal part.(C)
- Page 9 (1.11) Bidders having past experience is an obvious choice, but understanding the current requirement is also important. Point 2 and 3 can be combined together as both are concerned with understanding and meeting the functional requirements of NITC. A weightage of 25% can be given to the combined point. Still 5% is left unused. We can increase the weightage of point 6 and make it 10%.(O)
- Page 10 (2). Terms and conditions: Minor and major changes should be defined properly or atleast examples should be given for both major and minor changes. Otherwise there can be misunderstanding afterwards. (C)
- Page 11 (3). Training and Placement : There should be provision for uploading previous year's Placement records, Question papers.(O)
- Page 16 (a1. Point 5). Payment gateway fee and secured socket layer charge should also be included in yearly budget portion. But the fact mentioned in Page 4(1.3 Point 2.) is completely against any extra licenses or charges. So it is contradictory.(O)
- Page 17 ( ii . Point 1). It is impossible for the MIS admin to manage the whole administration department and at the same time enrol all the new students in MIS. So another set of people should be assigned for enrolling purpose. (O)

### **SECTION-3**

**(JAY SHANKAR : M120387CA , HARIPRIYA V : M120440CA)**

- Page 17 (a1.ii.Point 1) . MCA admission details should also be included. (O)
- Page 17 (a1.iii.Point 1). Details about overloading and auditing of courses is not mentioned.(O)
- Page 18 (a1.iii.Point 5) . Issue of same user multiple login has not been handled. A single user cannot have multiple login at the same instant of time. This is to avoid unwanted updation / deletion of user information. (O)
- Page 18 (a1.iii.Point 5) . A student should not be allowed to register for multiple courses having the same time slot. (O)
- Page 18 (a1.iii.Point 5) . Provision for late-registration with proper reason should be included (O).
- Page 18 (a1.iii.Point 6) . Point not clearly elaborated. Fees is not dependent on the number of courses one opted , credits. If it were to depend then proper detailing of those cases should be mentioned. Late registration fees should also be included.(O)
- Page 18 (a1.iii.Point 8). Approval of course registration by Faculty Advisor should be done online by the use of digital signatures(FA must have a unique digital signature). (O)
- Page 18 (a1.iii.Point 9). There should be provision for automatic updation in roll-list as and when new student register for any course.(O)
- Page 19 (a1.iv ). A reminder in the form of an email or mobile text should be sent to students who have attendance shortage for the courses they have registered.(O)
- Page 19 (a1.v.Point 2). Weightage should be given for attendance . (100-95)% = 4 marks,  
(95-91)% = 3 marks,(90-86)% = 2 marks.(85-80)% = 1 marks.(O)
- Page 19 (a1.v.Point 7). Result link should be sent to students in the form of emails or mobile texts.(O)
- Page 22 (a2.ii) . If a student is applying for a leave, the MIS before forwarding the request to FA should itself calculate the attendance percentage and inform the student about it. (O)
- Page 38 (d2. i). Student room allocation can be automated but to a certain extent. It should be taken into consideration that students of same class should be allocated in the same hostel.(O)
